

AARAV MEHTA

Software Engineering Student | aarav.mehta@example.test | +91 90000 11111 | Bengaluru, India

SUMMARY

Computer science student focused on backend and full-stack development. Built web applications with Java, React, Node.js and PostgreSQL.

EDUCATION

Riverdale Institute of Technology — B.Tech, Computer Science and Engineering

Aug 2023 – May 2027 | CGPA: 9.42/10

EXPERIENCE

Northstar Labs — Backend Engineering Intern

May 2026 – July 2026

- Built REST APIs with Node.js and Express for an internal inventory platform.
- Added PostgreSQL queries and Redis caching, reducing repeated database reads in the test workload.
- Wrote integration tests for authentication and product endpoints.

PROJECTS

CampusCart — Marketplace Web App | React, Node.js, Express, PostgreSQL

Created listing, search, login and order-history features. Implemented server-side validation and paginated product queries.

RouteWise — Route Planning Tool | Java, Dijkstra Algorithm

Implemented shortest-path calculation on weighted graphs and displayed route cost and reconstructed path.

SKILLS

Languages: Java, JavaScript, SQL, Python

Frameworks: React, Express

Tools: Git, Postman, PostgreSQL, Redis

CERTIFICATIONS

Cloud Fundamentals — Nimbus Learning, February 2026

Java Problem Solving — CodeSpring Academy, November 2025
